	Commercial clear aluminium	Aluminium alloy	Copper	Cupro alloy	Soft steel	Mild carbon steel grade	Low alloy steel	Hardenability steel	High-speed steell	Austenitic steel	Feretic (?) steel	Duplex steel	PH Stainless	Martensitic stainless	Nickel	Nickel alloy
Commercial clear aluminium																
Aluminium alloy																
Copper																
Cupro alloy																
Soft steel																
Mild carbon steel grade																
Low alloy steel																
Hardenability steel																
High-speed steel																
Austenitic steel																
Feretic (?) steel																
Duplex steel																
PH Stainless																
Martensitic stainless																
Nickel																
Nickel alloy																
Niobium																
Titanium alloy																
Wolfram																
Zirconium																

			■																	Niobium
		■																	■	Titanium alloy
									■	■								■	■	Wolfram
■									■	■										Zirconium
